ABOUT ANNE AND KEY TELEMARKETING LTD

Anne began telemarketing in in 2000 working with some of the largest brands worldwide and in the UK. Helping to fill gaps in the sales process with lead generation, appointment setting and hotkey transfer.

Industries have been varied, from general insurance to private medical insurance, Anne has crafted B2b campaigns that have been crucial to the growth of the company who have engaged her and her staff.

Key don't have a 'one size fits all' approach, we listen to what you feel is missing in your business, and gain ideas around what we feel will work – so we don't just burn your funds. We pride ourselves in becoming your personal marketing company, and we use only partners we have found to be the highest calibre, and what you would expect if you were engaging your own business development person.

We don't use scripted, robotic approaches, but we do sound natural and ensure that we obtain the best approach for your business.
